Tracking
Portal

# Transparency all the way

Complete Visibility

Live tracking of your shipment
location, wherever – whenever.

We track your shipment with real time movement,
using AIS satellite technology.

Accurate ETA

Improved ETA accuracy
enhanced with AI

Even when carrier dates are misleading, our system
calculates a more accurate "proposed ETA" based
on known patterns.

Take control

Document storage

01: Upload documents

Commercial invoices, packing lists and shipping documents can be easily uploaded with a drag-and-drop function.

Chat function

02: No need for email

Use the note section to record requests and instructions, held permanently against the record, and minimising email traffic.

Exception management

03: Automated Exception management on every shipment

Commercial invoices, packing lists and shipping documents can be easily uploaded with a drag-and-drop function.

01

Documents

Drag and drop files here
Max 5MB for each file and up to 10 files for each upload. Supported file formats: jpg, jpeg, png, pdf, xlsx, docx

Knowledge is power

Detention & Demurrage control
Detention & Demurrage easily managed
Shipment monitoring, dwell-time notifications Reporting & Control.
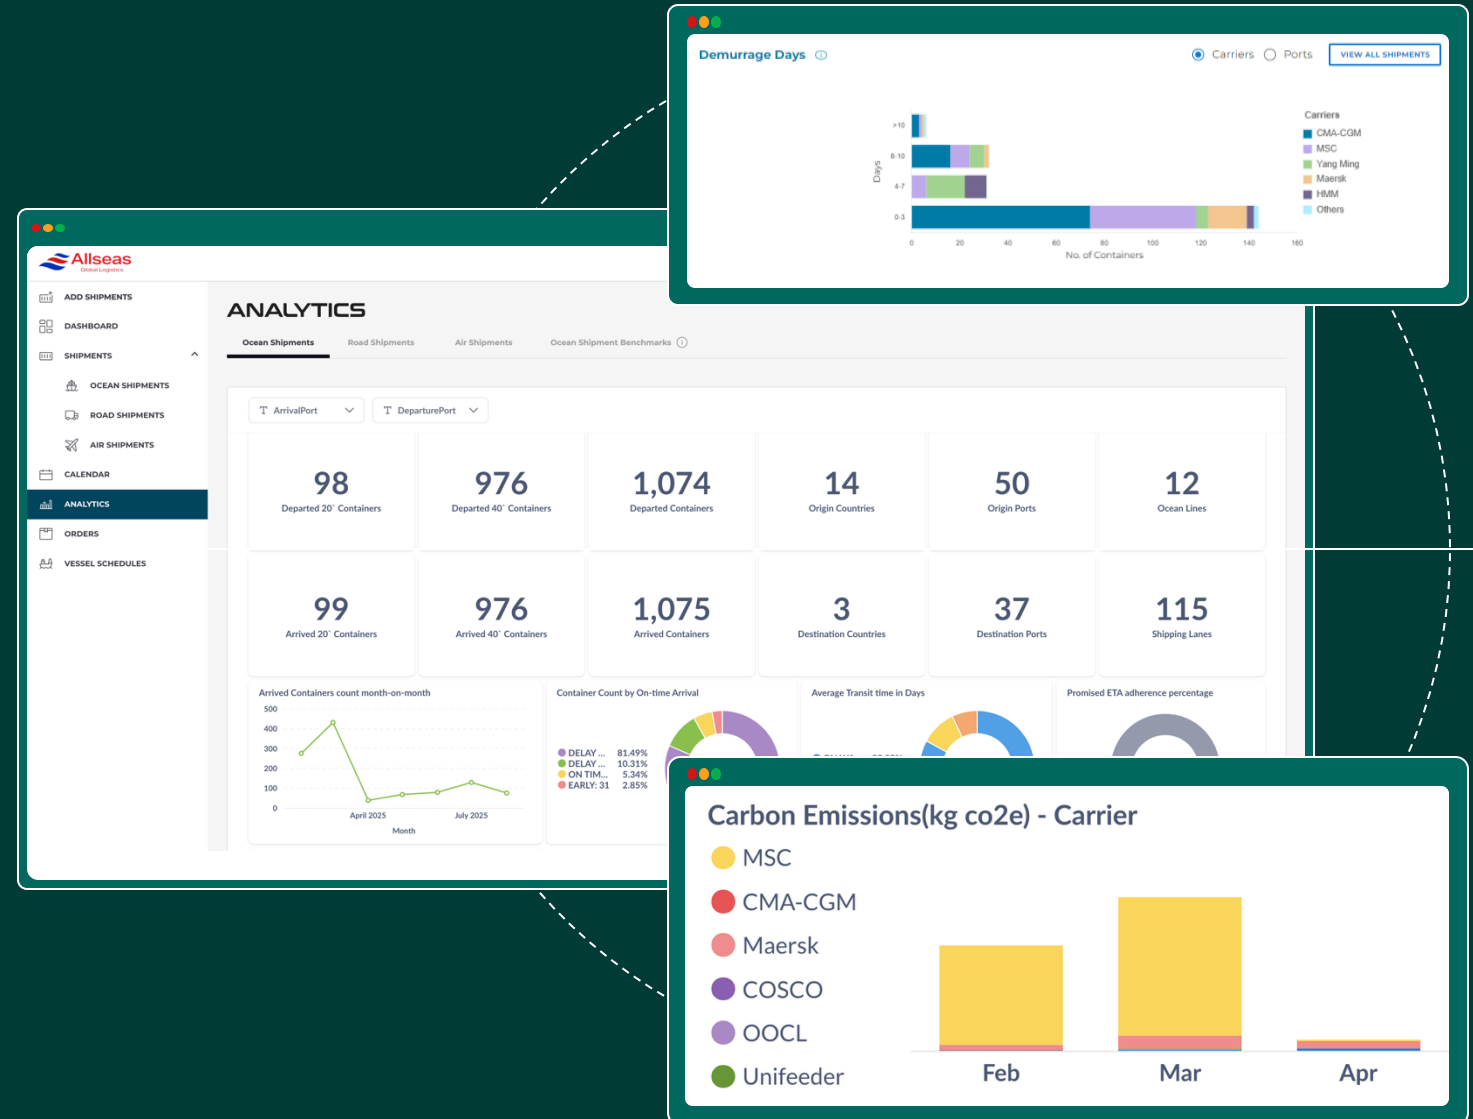

Customisable Dashboards
Dashboard & download reporting
All metrics, performance analysis, accuracy of transit time & delays, by supplier, carrier, routes.

CO_2 Reporting
CO_2 Emission Reporting
Shipment level, by carrier, by route, per period.

The benefits

More accurate ETA's AI learning – predicted ETA based on known patterns

Automated notifications - you can control which updates / milestones are "pushed" to you

Keep up-to-date on the whereabouts of your shipment with real time movement, using AIS satellite technology

Get ahead of any delays with Exception Management – updated every 2 hours

Be in "the know" with customizable dashboards and reports you can download

Review carrier and supplier performance – transit time performance, gate-in dates, etc.

Check your environmental impact, to help identify ways to reduce your CO_2 emissions

Document storage – have all shipment documents available online

Sharing is caring - Share hyperlinks to specific shipments with different stakeholders in your business
